

Our Commitment to Quality

Everyone on the Gustave A. Larson Company team is empowered and dedicated to delight our customers by continuously providing the highest level of excellence in our services and products, and delivering them with pride in a timely and professional manner.

To further support our customers, we have designated four specialists capable of handling any of our customers' hydronic, solar, and geothermal related needs. These well-qualified and certified specialists are available to assist in design, sizing, equipment recommendations, or any other questions our customers may have. Each of our four regions has a designated specialist:

Who to Contact:

North Central Region

Larry Ewert: Phone (612) 656-4341
larry.ewert@galarson.com

Great Lakes Region

Dave Janquart: Phone (414) 615-2640
david.janquart@galarson.com

Great Plains Region

Larry Rasmussen: Phone 402-331-9091
larry.rasmussen@galarson.com

Mountain Region

Shane Frandsen: Phone (801) 487-0644
shane.frandsen@galarson.com

Hydronics Specialist

- Access to professional Engineering Services
- Proficient in hydronic design and pipe sizing
- Proficient in sizing and selecting boilers, pumps, and controls
- Design services to perform heat loss/gain calculations, tubing layouts and mechanical drawings

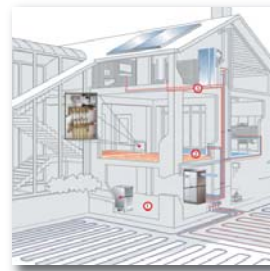

Solar Specialist

- Roth certified
- System design and integration
 - Glycol
 - Panel angels
 - Local latitude and longitude
- Competence of hydronics for space heating integration
- Compliance with state licensing requirements for solar installers
- Knowledge in federal, state, and local utility rebates

Geothermal Specialist

- IGSHPA Residential Installer Certified
- Completion of required Hydron Module training courses
- Fusion certified
- Trained and proficient in QT, HSS sizing & piping (through B&D Mfg)
- Proficient in GeoAnalyst design software
- Proficient in residential manual "J" heat loss/gain calculations
- Proficient in hydronic design, pipe sizing, duct design and friction loss
- HM certified trainer

HYDRONICS

SOLAR

GEO THERMAL

The Gustave A. Larson Company offers the following selection of the finest products from premier Hydronics, solar and geothermal manufacturers. Our highly trained personnel at each of our locations can assist you in selecting the products you need, as well as provide you with information on product applications, special promotions and educational opportunities.
